

Market intelligence that **pays off.**

Strengthen your position in business negotiations!

PIE – Plastics Information Europe strengthens your position in business negotiations with customers and suppliers. Our polymer price indices are accepted as neutral market reports throughout the industry and embedded in countless supplier contracts. With PIE's well-founded market analyses and forecasts you are always well-prepared for your price negotiations, and enjoy transparency and calculability in your daily business.

As one of the most successful information partners for the European plastics industry we have been supplying reliable business news since 1971!

PIE - Plastics Information Europe

Market know-how, polymer prices, industry news

PIE provides you with up-to-date and reliable information about the plastics industry: from polymer prices to market reports, company news and product launches.

Benefit from the professional expertise of our highly qualified and experienced editorial team, which prioritises the news and provides you with independent and objective market information.

PIE researches and reports the market price of all important polymers, drawing on one of the largest networks in the industry.

Prices are based on information gathered from converters, distributors, traders and producers, assuring a high degree of quality and reliability.

- European market reports for standard and engineering thermoplastics, polyurethanes, recycle, composites/GRP and feedstocks – more than 100 grades of polymer covered
- Time series and price indices
- MyPrices – individually configured reports and e-mail alerts
- Detailed analyses and predictions based on well-founded background information
- Several comparative and analytical tools (chart generator, Excel downloads)
- Regular polymer price reports for North America, China and Russia
- Spot Price Monitor – information on the latest spot market prices every week as an add-on

More than 5,500 European companies already put their trust in our data and reports – there probably is no other provider that is trusted by as many companies in Europe!

www.PIEWeb.com

MyPrices

Create your own individualised price report page

The MyPrices platform offers you the chance to create your own report – and save it permanently to a personal page. All pricing information will be automatically updated and ready to call up whenever you need it.

How you benefit:

- individualised price reports you can put together yourself
- the latest numbers at your fingertips
- quick set-up in three easy steps
- price information customised by and for you

One service – many possibilities

Online

The experts' online portal at www.pieweb.com. Your daily information head start: PIEWeb provides you with the facts and details that go beyond the printed newsletter:

- Daily news, on demand by e-mail
- Real time polymer price and market reports
- Comparative and analytical tools (chart generator, Excel downloads)
- Polymer price reports for North America, China and Russia
- Archives containing all articles published since 1994 and much more

Mobile

PIE mobile is the perfect choice when you are on the road. At mobile.pieweb.com you can access the most important sections of PIEWeb – optimized for smart phone usage.

Print

PIE print – on your desk or on the way: PIE's biweekly newsletter provides concise news and insights for busy plastics company executives. For thousands of plastics industry decision-makers, the newsletter is a must-read.

I read PIE because...

...it is Europe's best source for overall and detailed information about the plastics industry!

Bo Nielsen, Controlled Polymers A/S
Denmark

... through the use of both paper and electronic communication there is no better way of being clearly and concisely informed.

Mike Boswell, Plastrubition Ltd.
Great Britain

...it's the best and fastest way to manage important data for my business.

Jordi Bosacoma, Menzolit Vitroplast S.L.
Spain
